PROJECT EXPERIENCE

Bob's Computer Repair Shop (2024)

Web Application for Invoice Management

- Engineered a dynamic web application enabling employees to create and print invoices for customer transactions.
- Designed responsive and user-friendly interfaces using Bootstrap to ensure cross-device compatibility.
- Modeled efficient MongoDB schemas to manage user and invoice data effectively.
- Conducted iterative user testing, refining the UI/UX to meet high usability standards.
- Delivered real-time data updates, optimizing workflow and user satisfaction.

NodeBucket (2024)

Task Management Application

- Developed a task management platform with secure user authentication for personal productivity.
- Created an intuitive drag-and-drop interface for task status updates, leveraging Angular for seamless interactions.
- Integrated MongoDB for real-time updates, ensuring consistent and current task data.
- Used responsive design techniques with Bootstrap to deliver an optimal experience across devices.

PROFESSIONAL EXPERIENCE

Cornerstone Construction Services

Fort Worth, TX

Skilled Laborer

July 2021-Present

- Gained 3+ years of hands-on experience in home renovation and improvement, including flooring, painting, and full remodels.
- Excelled in client communication, ensuring satisfaction with project outcomes.
- Strengthened project coordination skills, balancing quality and efficiency in a fast-paced environment.

Mintahoe Catering & Events

St. Paul, MN

Food Caterer

February 2018 - April 2020
